

C-Series Coffee Brewers, Urns, & W-Series Warmers

With Avantco's pourover coffee brewers, urns and decanter warmers, you'll always have fresh, hot coffee on hand. Push button operation and stainless steel construction make them easy to operate and own.

- Perfect for coffee shops, diners, c-stores, restaurants break rooms and more
- Stainless Steel Construction
- Always have fresh, hot coffee ready for your customers

Description

Designed to brew delicious, flavorful coffee day after day, the Avantco CU55 55 cup coffee machine urn is perfect for caterers, schools, churches, offices and more! This durable coffee machine urn is easy to use, with a heating light to show when it's in brewing mode, and a warming light to show that it is in warming/holding mode, which keeps coffee hot and fresh for hours. Cool touch plastic handles stay cool even while the urn is hot.

A maximum fill line inside helps prevent overfilling, and a convenient sight line shows how much coffee is left. The Avantco CU55 coffee machine urn is made of sturdy double wall stainless steel, with a locking lid feature for safety and an auto-shutoff switch to prevent overheating. No filters needed. It is CE listed and requires a 120V electrical connection.

Features

- Double wall stainless steel
- 55 Cup (1.9 Gal.) tank
- Optimal brewing temperature 201°-205° F
- Locking lid
- Lighted system function
- Standard 120V operation

Recommended Companion Products

There's nothing like the enticing aroma of freshly brewed coffee. With Crown Beverages coffee, you'll always serve a perfect cup. Plus, if you do the math, you'll see that you could be saving nearly a dollar per pound or more, compared to some popular national brands!

Klearly Koffee

This cleaner removes mineral buildup and oil deposits in coffee pots that make coffee taste bitter or rancid, and should be used daily to ensure the best tasting coffee. A remarkably versatile cleaner, this product not only sanitizes coffee pots, but airpots, teapots, glass bowls, plastic coffee bins, stainless steel, porcelain and ceramics.
